March 10th - 12th
2023 | LOCATION:TBD

FAMINE & FOOD CRISIS
FORECASTING CENTER

HACKATHON

ARE YOU INTERESTED IN DATA SCIENCE, NUTRITION, HUMANITARIAN WORK OR INTERNATIONAL RELATIONS?

We are looking for data enthusiasts to help develop designs, dashboards, and datasets. No experience in data science is needed to participate, and all are welcome

We will explore important topics including historical famines and their prediction in Ukraine, Yemen, South Sudan, and Somalia, as well as their drivers. We will cover topics in R/Python coding, GIS, digital humanities (NLP) and knowledge of famine and conflict studies.

Training Lab

Drinks & Snacks will be provided
Those who complete hackathon activities
will receive
A CERTIFICATE OF COMPLETION
